DeVito Internal Medicine & Pediatrics

180 White Road, Suite 201, Little Silver, NJ 07739 | 732-741-3770

New Patient Membership Enrollment Agreement

For patients electing membership after their initial consultations. Complete one per patient.

Patient full name

Date of birth

Membership start date (office)

Household position: First / Second / Third+

1. Consultation and enrollment

New-patient consultations are separately billed at the office's current published fees. A patient ordinarily makes an enrollment decision after the second consultation. Without enrollment, initial consultations do not establish ongoing membership or regular member portal access.

2. Membership rates

Household position	Monthly membership fee
First household member	$125
Second household member	$115
Third and each additional household member	$95

Each rate is per person, based on active eligible members of the same household.

3. Who qualifies as a household family member

For this agreement, a family household member is a spouse, partner, child, or other family member whose primary residence is the same household as the participating member(s). A college student temporarily living away at school qualifies if that family household remains the student's primary/permanent home address. Living at a separate primary residence does not qualify.

4. When membership fees may change

Membership fees are governed by the rates and dates in this signed agreement. Any later change in membership fees outside these already agreed dates requires advance written notice and a new signed membership agreement. The practice may revise separately billed clinical service fees without amending membership fees, as described below.

5. Membership services

Membership supports preventive and chronic disease care, secure portal messages, appropriate prescription/refill services, in-person or telemedicine visits, scheduled Quest/Labcorp phlebotomy access, appropriate InBody testing at regular office visits, and preferred Momentum BioAnalytics metabolic test pricing. Patient portal messages are generally answered within 72 hours. Membership does not guarantee unlimited or immediate access or particular clinical outcomes.

6. Separately billed care and service fees

Office visits, telemedicine visits, physicals, new-patient consultations, preoperative assessments, vaccines, laboratory testing and other separately billed services are not included in the monthly membership fee. The current service fee schedule is available at www.devitomedpeds.com or from the office. Those service fees may change at the practice's discretion; the website or office will provide the applicable current fees.

7. Payment and automatic renewal

Membership is month-to-month and renews automatically without an annual commitment. Fees are processed monthly through PayPal, which emails a payment receipt after successful payment. I will maintain a valid payment method. A declined payment unresolved for 30 days despite reasonable office outreach may lead to membership termination and release of the reserved position after written notice.

8. Cancellation, waitlist and transfers

Cancellation requires 30 days' written notice, with no partial-month prorating under these agreed billing terms. A person who cancels must wait three years before being eligible to request placement on the practice waitlist; a future space is not guaranteed. Membership may not be transferred to another individual.

9. Optional Momentum BioAnalytics testing

Member fees for Active metabolic rate (AMR) / VO_2 max testing is $175, Resting metabolic rate (RMR) testing is $75, and combined AMR + RMR is $225. A new member may receive a one-time $50 discount on the first combined assessment ($175 at current pricing) while membership remains active. Testing is optional, separately billed, and its service fees may change independently of membership fees.

10. Clinical coverage and emergencies

The practice does not routinely provide acute or sick visits for ages 4 and older; acute or sick visits for ages 3 and under are arranged when appropriate and available, however, patients may need urgent care or another physician/pediatrician. Portal messages are not for emergencies; for an emergency, please call 911 or seek emergency care.

11. Insurance and separate paperwork

Membership is privately paid. The office may submit eligible office-visit claims to private insurance as a courtesy; payment or reimbursement is not guaranteed. The practice does not participate in Medicare or Medicaid. Services under a valid Medicare opt-out/private-contract arrangement are not eligible for Medicare reimbursement. Medicaid patients should discuss restrictions with the office. HIPAA and registration documents are handled separately.

Patient agreement

I have read both pages, agree to the applicable household rate and membership terms, and elect to enroll. If the patient is a minor, a parent/legal guardian signs. The practice will confirm acceptance and membership start date. A downloaded form does not itself establish enrollment.

Patient or parent/legal guardian signature

Date signed

Printed signer name

Relationship to patient (if minor)
